

ImmoTrack is the **web-based** software that enables you to engage today with the **facility management technology of tomorrow.**

ImmoTrack takes your **facility management** to the next level.

The system uses **algorithms** to **regularly optimise** schedules based on the **net working time** recorded for each task.

Keep track and manage the tasks assigned to each of your **facility management workers**, including photographic evidence – **all online.**

Digitalised, **guided work processes** and easy **progress tracking** thanks to **real time updates.**

## How you benefit with ImmoTrack

### Real estate managers

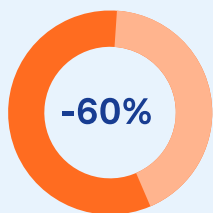

- Maintain control over your entire property portfolio with real time updates
- Investigate complaints immediately online
- Fewer site visits
- Guarantee contractual performance

### Facility managers

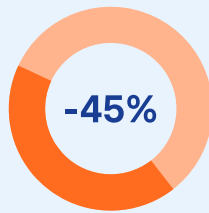

- Maintain an online overview of workers and tasks via real time GPS tracking
